***Note:** There is no statutory 8(a) goal. SBA recommends 8(a) targets. They are not mandatory. The purpose of the target is to give general guidance so that combined use of 8(a) vehicles and non-8(a) awards to SDBs will ensure successful achievement of the statutory 5 percent SDB goal. SBA suggests, but does not require, as an 8(a) target equal to one half or 50 percent of the SDB goal.
